# PRESS RELEASE

## ENAV: IDS AIRNAV WINS CONTRACT IN ZAMBIA

Rome, Italy - October 28, 2019 – ENAV announces that it has been awarded, through its subsidiary IDS AirNav, a contract by the Zambia Airport Corporation for a total consideration of 1.93 million US dollars.
The Zambia Airport Corporation provides air navigation services throughout the Republic of Zambia and manages the four international airports, Lusaka International Airport, Livingstone International Airport, Ndola International Airport and Mfuwe International Airport.

IDS AirNav will provide the AHMS (Aeronautical Message Handling System) and the new dynamic AIM (Aeronautical Information Management) platform for the new Ndola airport contributing to the technological development of air transport in the Republic of Zambia and consolidating Zambia Airports Corporation's trust in IDS AirNav in the implementation of the ICAO roadmap of transition to new aeronautical information management systems.

*IDS AirNav is the company of the ENAV group that serves the world of Air Traffic Management (ATM) and airports with Commercial Off-The-Shelf (COTS) solutions and software products aimed at supporting the transition from Aeronautical Information Services (AIS) to Aeronautical Information Management (AIM) in full compliancy with the ICAO and EUROCONTROL mandates for Aeronautical Data Quality (ADQ). Currently, IDS AirNav systems are used by around 100 customers worldwide. www.idsairnav.com*
