

PRESS RELEASE

ENAV: SIGNED CONTRACT IN RUSSIA

Rome, 21 June 2021 – Through its subsidiary IDS AirNav, worldwide leader in aeronautical information management systems – ENAV has signed a contract with the Russian company AZIMUT JSC, specialized in technologies for Air Traffic Management, as part of an order with STATE ATM Corporation, the service provider for air navigation services in Russia.

The contract will provide a digital platform for airspace design and related procedures, with Aeronautical Information Management (AIM) components.

The IDS AirNav project, which will be completed by year end 2021, will enable STATE ATM Corporation to automate processes to manage airspace design and all information.
