

ENAV: AIR TRAFFIC CONTROL SYSTEMS FULLY OPERATIONAL

Rome, July 19, 2024 – ENAV - the Italian Air Navigation Service Provider, following the malfunction of some computer services globally that are also causing disruption to air transport - informs that all air traffic surveillance, control and management systems have not been impacted and are fully operational. However, ENAV Group technicians are constantly monitoring the situation. All ENAV operators, from control towers and radar centers, are working to ensure maximum system support to reduce delays and cancellations.
