ESG IDENTITY CORPORATE INDEX 2024: ENAV AMONG THE TOP PERFORMING COMPANIES

First place among companies in the sector "Public Services and Infrastructure"

Rome, 2 July 2024 - ENAV SpA, the Italian Air Navigation Service Provider, is ranked first among companies in the "Public Services and Infrastructure" sector in the ESG Identity Corporate Index 2024. ENAV was among the Top Performer companies in sustainability. Never since the special ranking has it been so high. Out of more than 300 companies included in the index managed by ET GROUP, which assesses the integration of ESG principles into corporate strategies, ENAV ranks 13th overall and first in the "Public Services and Infrastructure" sector. Thanks to its solid governance and achievements in the Environment and Social areas, ENAV achieves the best ranking in its history with growth, compared to 2023, of 7 positions.

The CEO Pasqualino Monti stated: *"We are proud of this result, which repays us for the work we have done in recent months. ENAV's path in sustainability is still very long, but the road we have taken is the right one. We are a Carbon Neutral Group and have fully integrated sustainability into our industrial strategies, combining all ESG aspects with ENAV's mission to create value for the company, its people, shareholders and stakeholders"*.

The ESG Identity Corporate Index (ESG.Ici), also known as the Integrated Governance Index, now in its ninth edition, is the quantitative analytical tool that assesses the integration of ESG principles into corporate strategies, increasingly emerging as a distinctive indicator in assessing Italian companies' commitment to sustainability. The questionnaire involved the main Italian companies listed on the Ftse Mib index, the companies of the Consob basket and the top 50 unlisted Italian companies, with the participation of over 420 managers.
